## EDUCATION

### Ashesi University

Berekuso, Eastern Region

#### BSc. Management Information Systems

Expected Date of Graduation: May 2026

### Accra Academy

Bubuashie, Accra

#### Business (WASSCE)

Sept 2018 – Sept 2021

## ACHIEVEMENTS/AWARDS

### Scholarship for Impact Program, Ashesi University

Sept 2022 – Jun 2026

### Dean's List Honors, Ashesi University

Sept 2023 – Dec 2023

## WORK EXPERIENCE

### The Electricity Company of Ghana – Kasoa South

Jun 2025 – Aug 2025

#### Customer Management Executive Intern

- Operated ECG's Customer Management System (CMS) to process bill payments, verify transactions, and register new service meters.
- Applied systems analysis & design principles to evaluate the performance of ECG's ERP system, identifying and reporting gaps in scalability, reliability, and uptime.
- Diagnosed and resolved hardware and software issues, improving service delivery from 50 people to over 75 people daily.

## CO-CURRICULAR ACTIVITIES

### Quantum Job Simulation

Dec 2025 -Jan 2026

#### Data Analyst

- Built an end-to-end analytics workflow in R, including data cleaning, feature extraction, exploratory analysis, visualization, and statistical testing (t-tests, confidence intervals) on large transactional datasets.
- Translated analytical findings into commercial insights and recommendations, supporting category strategy decisions through clear data storytelling and stakeholder-ready reporting.
- Implemented customer segmentation and control-store matching techniques (correlation and magnitude distance) to rigorously evaluate store trial performance and identify statistically significant uplifts.

### Goldman Sachs Operations Job Simulation – USA

July 2024 – Aug 2024

#### Operations Analyst

- Analyzed financial data and identified issues in trade settlements and asset transfer for high-net-worth clients.
- Collaborated with cross-functional teams, including Trading, Compliance, and IT, to resolve complex operational issues.

### KPMG Audit Job Simulation – Forage

July 2024 -Aug 2024

#### Career Catalyst

- Completed a job simulation focused on conducting an audit for a hypothetical customer, Ashbourne Industries.
- Determined the materiality of general ledger accounts to plan the audit

## PERSONAL PROJECTS AND RESEARCH

**ECG CONNECT****Nov 2025 – Present****Developer**

- Built a digital platform for ECG that unifies the requirements for meter acquisition, improving availability and visibility by over 70%.
- Increase the expected revenue of surveyors and energy commissioners by an estimated 30% by increasing their visibility to customers.
- Cuts down on fraud during meter acquisition by over 70% due to the strict verification process.
